**WELLNESS POLICY**

Given the documented connection between proper nutrition, adequate physical activity and educational success, the Board of Education adopts the following goals and authorizes the following actions to provide district students with a school environment that promotes student health and wellness and reduces childhood obesity.

For the purposes of this policy, “school campus” means all areas of district property accessible to students during the school day; “school day” means the period from the midnight before to 30 minutes after the end of the official school day; and “competitive food” means all food and beverages other than meals reimbursed under federal food programs available for sale to students on the school campus during the school day.

**I. Foods and Beverages Available for Sale to Students on School Campus During the School Day**

The Board recognizes that a nutritious, well-balanced, reasonably-portioned diet is essential for student wellness. To help students possess the knowledge and skills necessary to make nutritious food choices for a lifetime, the district shall ensure that all foods and beverages available in school promote good nutrition, balance, and reasonable portion sizes. The district shall ensure that all foods and beverages available for sale to students on the school campus during the school day meet or exceed the program requirements and nutrition standards found in federal regulations.

To accomplish this, the Board directs that the district serve healthy and appealing foods and beverages at district schools, following state and federal nutrition guidelines, as well as safe food preparation methods.

**School Meals – the district shall:**

1. Include fruits, vegetables, salads, whole grains, and low fat items at least to the extent required by federal regulations.
2. Encourage students to try new or unfamiliar items.
3. Make efforts to ensure that families are aware of need-based programs for free or reduced-price meals and encourage eligible families to apply.
4. Consider serving produce and food from local farms and suppliers.
5. Make free drinking water available at locations where meals are served.

**Meal Scheduling – the district recommends**

1. Provide adequate time to eat.

2. Schedule lunchtime between normal lunch hours to the extent possible.  
Foods and Beverages Sold Individually (e.g., a la carte, vending machines, schools stores) – the district shall:
  1. Ensure that all such items meet the nutrition standards set in federal regulations for competitive foods regarding whole grains, fruits, vegetables, calories, fat, saturated fats, trans fats, sugar, sodium, and caffeine.
  2. Permit the sale of fresh, frozen or canned fruits and vegetables, if processed pursuant to federal regulations, as exempt from the nutrition standards.
  3. Work with existing vendors or locate new vendors that will comply with nutrition standards.

#### Fund-Raising Activities – the district shall

1. Ensure that all fundraisers selling food or beverages to students on school campus during the school day meet the nutrition standards set in federal regulations for whole grains, fruits, vegetables, calories, fat, saturated fats, trans fats, sugar, sodium and caffeine.
2. Promote non-food items to sell, or activities (physical or otherwise) in which to participate.
3. Student groups conducting fundraisers which take place off the school campus or outside the school day must be aware of and are encouraged to follow this policy.
4. Outside organizations (e.g., parent groups, booster clubs) conducting fundraisers which take place off the school campus or outside the school day are encouraged to follow this policy.

#### Celebrations – the district shall:

1. Abide by the guidelines established in the District Wellness Plan for the frequency and content of classroom and school-wide celebrations where food is served.
2. Promote the use of food items which meet the standards for competitive foods and beverages, and promote non-food activities, and discourage foods and beverages which do not meet those standards, at celebrations
3. Model the healthy use of food as a natural part of celebrations.

## II. Physical Activity

Physical activity is an important factor in staying healthy and being ready to learn. The Board encourages every student to develop the knowledge and skills necessary to perform a variety of physical activities, to regularly participate in physical activity, and to appreciate and enjoy physical activity as an ongoing part of a healthy lifestyle. In addition, staff, families, and community are encouraged to participate in and model physical activity as a valuable part of daily life. The district's Physical Education program shall adhere to the curricular requirements of the Commissioner of Education and the New York State Learning Standards.

#### Physical Education

1. Students shall engage in physical education for at least the minimum number of hours or days per week under State requirements.
2. Physical Education classes shall incorporate the appropriate NYS Learning Standards.
3. Promote, teach and provide opportunities to practice activities that students enjoy and can pursue throughout their lives (e.g., yoga, fitness walking, step aerobics).
4. The performance of physical activity shall not be used as a form of discipline or punishment.

#### Recess

1. Maintain scheduled daily allotment of recess time for elementary school.
2. Student discipline should refrain when possible from impeding opportunities for physical activity.
3. Consider scheduling recess before lunch.

#### Physical Activity in the Classroom

1. Promote the integration of physical activity in the classroom

2. When the district is under severe time or space constraints, consider meeting the state requirements for Physical Education through collaborative and integrative in-classroom activity, under the supervision of a Physical Education teacher.

#### Extracurricular Opportunities for Physical Activity

1. Promote clubs and athletic program activities that meet the various physical activity needs, interests, and abilities of all students (e.g., walking, hiking and climbing).
2. Offer accommodating space for youth programs.

### III. Nutrition Promotion and Education

The Board believes that nutrition promotion and education is a key component in introducing and reinforcing healthy behaviors in students. Nutrition promotion and education that teaches the knowledge, skills, and values needed to adopt healthy eating behaviors shall be integrated into the curriculum. Nutrition promotion and education information shall be offered throughout the school.

The district's broader Health Education program shall incorporate the appropriate New York State Learning Standards.

The Board's goals for nutrition promotion and education include that the district will:

1. Include nutrition education as part of not only health education classes, but also classroom instruction in other subjects.
2. Include enjoyable developmentally appropriate, culturally relevant participatory activities (such as contests, promotions, taste testing, farm visits and school gardens).
3. Promote fruits, vegetables, whole grain products, low fat dairy products, safe and healthy food preparation methods, and health enhancing nutrition practices.
4. Educate about caloric balance between food intake and energy expenditure.
5. Teach media literacy with an emphasis on food marketing where appropriate.

### IV. Other School-Based Activities

The district may implement other appropriate programs that help create a school environment that conveys consistent wellness messages and is conducive to healthy eating and physical activity. Such activities may include, but are not limited to, health forums or fairs, health newsletters, parent outreach, employee health and wellness activities, limiting the use of food as a reward, reviewing food marketing and advertising in school, hosting or promoting community-wide events, and offering wellness-related courses in the district's adult education program.

#### Implementation

The Board shall designate one person to be responsible for ensuring that the provisions of this policy are carried out throughout the district. The Board may also designate one person in each building to ensure that the wellness activities and actions are being implemented at the building-level.

#### Monitoring and Review

The Superintendent shall report to the Board and the public on the implementation and effectiveness of this policy. Every two years the Superintendent or his/her designee in consultation with appropriate personnel and advisory committees, shall monitor and review the district's wellness activities to determine whether this policy is having a positive effect on increasing student wellness and decreasing

childhood obesity in the district. Based on those results, this policy, and the specific objectives set to meet its goals, may be revised as needed.

Parents, student, food service professionals, physical education teachers, school health professionals, school administrators, the general public, and the school board shall participate in the development, implementation and periodic review and update of this wellness policy.

The district shall inform and update the public (including parents, students and others in the community) about the content and implementation of this wellness policy.

The district shall monitor and review the implementation and effectiveness of this policy by conducting:

1. Periodic checks with Building Principals, classroom staff, and school health personnel to assess the progress of wellness activities and their effects.
2. Periodic checks of the nutritional content of food offered in the cafeterias for meals and a la carte items, and sales or consumption figures for such foods.
3. Periodic checks of the nutritional content of food available in vending machines, and sales or consumption figures for such foods.
4. Periodic checks of the nutritional content of food available in the school stores.
5. Periodic checks of the amount of time students spend in Physical Education classes, and the nature of those activities.
6. Periodic checks of extracurricular activities offered of a physical nature in schools.
7. Periodic review of the nutrition education curriculum.
8. Periodic completion of relevant portions of the CDC School Health Index.
9. Periodic check of student/parent opinions of cafeteria offerings and wellness efforts.
10. Periodic review of professional staff development offered which focuses on student wellness.
11. NYSSBA's Student Wellness Assessment Checklist every two years to review the effectiveness of this policy.

**F. Revised Policy 9645- Disclosure of Wrongful Conduct Board of Education Policies - First Reading**

The revised Policy 9645 – Disclosure of Wrongful Conduct Board of Education policies is presented for your information and discussion at the April 12, 2016 Regular Meeting of the Board of Education.

**A second reading, with any revisions deemed appropriate, will occur at the May 10, 2016 Regular Meeting of the Board of Education**

**The Superintendent of Schools will subsequently present the final copy to the Board of Education for its action at the May 24, 2016 Regular Meeting.**

## **DISCLOSURE OF WRONGFUL CONDUCT**

The Board of Education (“Board”) expects officers and employees of the district to fulfill the public’s trust and to conduct themselves in an honorable manner, abiding by all district policies and regulations and by all applicable state and federal laws and regulations.

However, when district officers or employees know or have reasonable cause to believe that serious instances of wrongful conduct have occurred, they should report such wrongful conduct to the Superintendent of Schools (“Superintendent”) or the Board. For purposes of this policy, the term “wrongful conduct” shall be defined to include:

- theft of district money, property, or resources;
- misuse of authority for personal gain or other non-district purpose;
- fraud;
- actions that compromise the security and integrity of the district’s or state’s testing program;
- violations of applicable federal and state laws and regulations; and/or
- serious violations of district policy, regulation, and/or procedure.

### Disclosure and Investigation

Employees and officers who know or have reasonable cause to believe that wrongful conduct has occurred or is occurring shall report such mismanagement, fraud or abuse to the Superintendent or the Board, if the allegation involves the Superintendent. Upon receiving a report of alleged wrongful conduct, the district shall take prompt steps to conduct an investigation.

Staff members who suspect that a violation of state testing procedures has occurred by a certified educator, or non-certified individual involved in the state testing program, must report their concerns to the State Education Department in the manner proscribed by the Commissioner of Education, and must also report concerns to the Superintendent or Board. Any Building Principal receiving such a report will relay this information to the Superintendent.

The Superintendent or the Board or the Superintendent’s or Board’s designee (e.g., School Attorney, Independent Auditor, etc.) shall maintain a written record of the allegation and conduct an investigation to ensure that the appropriate unit (e.g., auditors, forensic auditors, police, etc.) investigates the disclosure.

Except as otherwise provided in either state and/or federal law, the Board designated officer will make all reasonable attempts to protect the identity of the employee making the disclosure in a confidential manner, as long as doing so does not interfere with conducting an investigation of the specific allegations or taking corrective action.

Pursuant to § 75-b of the Civil Service Law, the District will not dismiss or take other disciplinary action against an employee because the employee discloses to the Superintendent or the Board, or when

appropriate, another governmental body information: (1) regarding wrongful conduct that creates and presents a substantial and specific danger to the public health or safety; or (ii) which the employee reasonably believes to be true and reasonably believes constitutes an improper governmental action. "Improper governmental action" means any action by the District or a District employee, or an agent of the District, which is undertaken in the performance of official duties and which is in violation of any federal, state or local law, rule or regulation.

Nothing in this policy is intended to interfere with legitimate employment decisions.

The Superintendent may establish regulations necessary to implement this policy.

This policy and accompanying regulations must be given to all employees.
